JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

CUBA.

Report from Cienfuegos—Inspection and fumigation of vessels.

Acting Assistant Surgeon Marsillan reports, March 25, as follows:

Week ended March 23, 1907.

Vessels inspected.....	4
Vessels inspected and fumigated.....	1
Bills of health issued.....	5
Crew inspected.....	136
Cabin passengers in transit to Habana.....	4
Cabin passengers landed here.....	5

No immune certificate issued.

The American schooner *E. Starr Jones*, from Mobile, and bound for Sabine Pass, Tex., on March 20, was fumigated by this office. All temperatures of crew found normal.

The British steamship *Soutra*, originally from South American Atlantic ports, entered here on March 14 from Georgetown and Demerara, British Guinea, and cleared on March 20 with a cargo for New York. This vessel, as shown by certificates on her bill of health, was fumigated at Georgetown on March 6, and arrived here with a clean bill of health. She lay at wharf here while taking on cargo. The British steamship *Coronda*, from San Juan, Porto Rico, bound for Habana, had 4 cabin passengers in transit to Habana and 5 were left here. All were from Porto Rico and Buenos Aires and were in good health.

No quarantinable disease entered the port during this week.

The sanitary condition of the city and surrounding country is normal.

Report from Habana—Inspection and fumigation of vessels—History of steamship Cayo Soto.

Passed Assistant Surgeon Stansfield reports, March 25, as follows:

Week ended March 23, 1907, as follows:

Vessels inspected and bills of health issued.....	26
Vessels not inspected and bills of health issued.....	7
Crew of outgoing vessels inspected.....	1,088
Crew of outgoing vessels not inspected.....	242
Passengers of outgoing vessels inspected.....	1,144
Passengers of outgoing vessels not inspected.....	69
Vessels fumigated prior to sailing.....	6

The general sanitary condition of the city continues good. There has been a noticeable increase in the number of mosquitoes.

The *Cayo Soto*, which arrived at Mississippi River Quarantine with a suspected case of yellow fever, came from London via Bermuda, and arrived in Habana February 18, 1907. She was anchored in the open bay well off shore and did not at any time go to the wharf. I am informed by the agent that no one came ashore except the captain. As the vessel was not in quarantine, some of the crew may have come ashore without the agents' knowledge. One new man was shipped as a member of the crew while the vessel was here.

The vessel sailed from here at 11 p. m. February 22 and proceeded to Tunas de Zaza, where she lay in open bay and stopped only long
